Canipes Canipe 11/17/71

of Canipe's Amusement Company. This is a most important thing to remember because what uh I refer to as the bundle was dropped in in this little alcove right here off of the sidewalk, uh it was the State's contention that when after Ray had fatally shot Dr. King, that he came down these steps right here and out of this door, came South on Main Street and and uh dropped a bundle here which was wrapped in a green bedspread and wrapped in this bedspread was Ray's suitcase containing various items and a and a box containing the rifle which was used to kill Dr. King. So this is the little offset in Canipe's Amusement Company. All right.
